

2003-47

I am sending this message to convey my deep concerns over my Fathers ability to gain satisfaction for his Asbestos Exposure.

If proposed court rule No. 2003-47 is allowed to pass you will be taking away his rights to gain relief by a jury trial and allow large corporations to avoid their responsibilities. They exposed him and should stand for the ramifications of their acts. A jury trial is the only fair and equitable platform, otherwise why would they be even attempting this underhanded maneuver. Please do not allow Proposed Court rule No. 2003-47!

My Father (Harry Knoy) is a 79 year old Father, Husband, Brother, Grandfather and Retiree who worked hard all his life devoted to supporting his family and his company. He had a devotion to his work and a faith in his purpose. However now we find that those companies did not have the same commitment to him. Please do not allow this attempt by large corporations to avoid their responsibilities to many hard working citizens that have provided the labor for them to be successful.

Sincerely,

David and Diane Stirling
